

**Congress of the United States**  
**House of Representatives**

Washington, DC 20515

November 14, 2003

**SUPPORT AMERICAN JOBS**  
*Vote for H.R. 2896*

Dear Colleague:

The House will soon consider H.R. 2896, the American Jobs Creation Act of 2003, which was recently approved by the Ways and Means Committee. We urge you to join us in supporting this important legislation that promotes job creation for our constituents.

H.R. 2896 was written to avoid \$4 billion in retaliation against our farmers, steel workers, textile employees, and other American workers. But the legislation also provides an opportunity to support U.S. manufacturing. H.R. 2896:

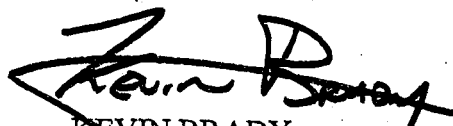

- Cuts corporate tax rates on U.S. manufacturing and production income,
- Extends expensing for small businesses,
- Expands S corporation eligibility, which will help small businesses and farmers, and
- Increases the size of companies that are exempt from the AMT.

These provisions will make U.S. employers more competitive and better able to expand their businesses. H.R. 2896 also includes important tax reforms for U.S. employers that operate both in the United States and internationally. According to the Tax Foundation, U.S. multinationals employ approximately 23 million people in the United States. Moreover, for every one job these companies and their subsidiaries employ overseas, they employ three people in the United States. The American Jobs Creation Act is balanced legislation that will benefit workers across the country.

We hope you will join us and over 250 major employers and trade associations who support H.R. 2896.

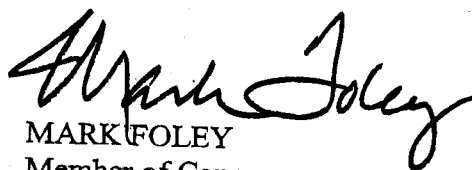

Sincerely,
